ThetaHealing® Basic DNA Course with Mayella Reynolds

Are you feeling ready for a change? We are running a 3-day course in Chepstow for people interested in training as practitioners in ThetaHealing®, a form of energy healing which uses the natural Theta brainwave state, enabling you to change limiting beliefs in the unconscious mind, immediately.

About the Course

The Basic Theta Healing course is three-days of intensive practical healing, a truly life enhancing experience.

Your mind is extraordinarily powerful - so by harnessing its power you really can have the life that you dream of. However, the negative beliefs that you have in your subconscious mind limit your possibilities and can block your way forward. ThetaHealing® is a simple technique that uncovers the negative limiting beliefs in your subconscious mind and changes them, empowering you to move forward in your life in a positive impactful way.

As a practitioner you will use the natural Theta brainwave state to connect to the creative source energy of all that is, enabling you to heal yourself and others.

You will learn the fundamental principles and techniques of ThetaHealing® as taught by founder Vianna Stibal, and be certified as a ThetaHealing® Basic Practitioner.

On this course you will learn:

- To discover and/or develop your intuition and visualisation skills
- To connect to and communicate with Creator of all that is / Universal energy
- A simple muscle testing technique
- How negative subconscious beliefs and feelings create obstacles in your life
- How to locate limiting beliefs or feelings within your subconscious, and change them
- How to read or scan the body
- Connecting to and communicating with your Guardian Angels
- How to use Theta Healing with your friends, family, clients
