

## **From Certificate to Diploma - Your Developmental Pathway in Gestalt Psychotherapy**

At **Gestalt Centre Wales**, we offer a rich and supportive training journey — from **Certificate level** through to **Advanced Diploma in Gestalt Psychotherapy**. Whether you're taking your first steps or moving toward deep mastery, our programme blends rigorous learning with creative exploration, equipping you to work with depth, presence, and confidence.

*From first steps to deep mastery — a Gestalt journey like no other.*

Rooted in a relational framework, you'll immerse yourself in:

- Embodied, experiential learning that brings theory to life.
- Gestalt experiments to expand awareness, skill, and adaptability.
- Clinical application guided by experienced tutors.
- A vibrant community that supports your growth at every stage — *where relational depth meets creative skill.*

This is more than training — it's a transformative developmental pathway that will challenge, inspire, and equip you to meet the ever-changing demands of the therapeutic field with resilience and authenticity.

*Learn the art. Live the process. Become the therapist you're meant to be.*

Upon successful completion, these pathways can lead to professional recognition with **BACP, UKCP, or EIATSCYP**. (European Interdisciplinary Association for Therapeutic Services for Children and Young people)

### ***Why Choose Our Training?***

- Relational depth at the heart of every module.
- Embodied, experiential learning that brings theory alive.
- Gestalt experiments interwoven to expand awareness and skill.
- Clinical application guided by experienced tutors.
